

## **Pfingsten Boosts Unified Power with East Coast Add-on**

### Unified Power Acquires Critical Power USA

---

**Chicago, IL – August 3, 2016**

Pfingsten announced its portfolio company, Unified Power, acquired Critical Power USA in Frederick, MD. Critical Power USA is an independent service provider specializing in the critical power services market. The company offers a comprehensive range of preventative and emergency maintenance services with a highly skilled team of field engineers supporting the entire East Coast region from Maine to Florida.

"The Critical Power USA acquisition is another step in broadening our national footprint of field service technicians to better serve our customers with quicker response times," said Chris Roach, President and CEO of Unified Power.

This is Unified Power's sixth strategic acquisition since Pfingsten became the majority shareholder in 2011. Unified Power has invested heavily in state-of-the-art systems, technician product training, parts logistics and field service technicians to build the largest national, independent service provider for the critical power industry. Pfingsten initially acquired a regional service provider with 30 field service technicians and, through organic growth and acquisitions, now has over 120 field service technicians to serve its customers on a nationwide basis.

"We are gratified that Critical Power USA, and 24/7 Technology last month, have joined forces with Unified Power and share the same mission to create the premier independent critical power service provider nationwide," said Phillip Bronsteatter, Principal at Pfingsten.

The transaction was completed on August 1, 2016. To learn more about Unified Power or Critical Power USA, visit [www.unifiedpowerusa.com](http://www.unifiedpowerusa.com) and [www.criticalpowerusa.com](http://www.criticalpowerusa.com).

#### **About Pfingsten**

Pfingsten is an operationally focused private equity firm formed in 1989. From its headquarters in Chicago, IL and representative offices in ChangAn, China, New Delhi, India and Chennai, India, the firm builds better businesses through operational improvements, professional management practices, global capabilities and profitable business growth rather than financial engineering. Since completing its first investment in 1991, Pfingsten has raised five investment funds with total commitments of approximately \$1.3 billion and has acquired 114 manufacturing, distribution and business services companies.
